The Internet

All Research Library workstations have free Internet access (except resources included in the Federal list of extremist materials (http://minjust.ru/ru/extremist-materials)).

Wi-Fi is accessible from mobile devices in all reading rooms and halls of the library.

To access Wi-Fi, you need to choose „library" Wi-Fi network on your device, open the browser and fill in offered fields.

All Wi-Fi settings will be applied automatically.

Available services: www, pop3, smtp, icq.

If you fail to connect to Wi-Fi (library), please contact us: smirnov@lib.tsu.ru. Please indicate the time, your device (laptop, iPad, iPhone, etc.) and the operating system.
