

Requesting materials from the Department of Rare Books and Manuscripts at the Research Library of Tomsk State University

The library grants access to all items from the Department of Rare Books and Manuscripts, but these items have special usage conditions:

- You may not take items outside of the library;
- You are only allowed to view manuscripts, early printed books, archival documents, maps, and illustrative items in the Professors Reading Room only;
- You can receive specified items for cover letter from your employer (place of study) produced to the Managing Director of the Department of Rare Books and Manuscripts.

To register an item order, you should submit a handwritten request to the staff member of the 24/7 Information Centre. The request is carried out within a day.

If an item has duplicates at the other library stocks or different editions, you will be suggested to use them instead.

You can register your online order to the Department of Rare Books and Manuscripts via E-catalogue to work with an item at the Professors Reading Room.
